Objective

I'm a new and motivated Java Developer ready to start my programming career. I have a basic understanding of Java and data structures, and I know how to create graphical user interfaces (GUIs) using Java Swing, AWT, and JavaFX. I'm excited to improve my skills and solve problems. I look forward to working on real-world projects and being part of a team.

Projects

Bank Management System   **Link**

- Developed a Java-based desktop application for managing Bank operations.
- Implemented features for Withdraw, ChangePin, FastCash, and ATM features.
- Utilized Java Swing and Java AWT for GUI, JDBC for database connectivity, and MySQL for data storage

Portfolio   **Link**

- Build a portfolio website to show my profile
- HTML CSS JS have been used to make it
- That is fully responsive portfolio website

CERTIFICATE

Data Analytics   **Link**
Date - 14 April 2025

Software Engineering   **Link**
Date - 16 April 2025

EDUCATION

Bachelor of Computer Application   July 2022 - June 2025
Govt Hr Secondary School Jhinna, Maihar

12th   April 2021 - March 2022
Govt Hr Sec School Jhinna, Maihar

10th   April 2019 - March 2020
Govt Hr Sec School Jhinna, Maihar

SKILLS

Programming Language : Java , C++ , Python

Framework : Spring , SpringBoot , Swing , AWT

Course work : DSA , OOPs , DBMS , Computer Network , OS

Web Technologies : HTML **,** CSS **,** Javascript , React

DataBase : MySql , Excel

Soft Skills : Teamwork **,** Good Communication
